

Policy of the Lancaster Board of Education

Support

SECURITY

The principal shall supervise the security of his/her buildings and grounds. Custodians reporting for duty shall open buildings and make them ready for the school day. At the close of daily school activities, custodians have the responsibility of closing and locking all exit doors. Instructional personnel who conduct activities after school hours have the responsibility for turning off lights and locking exit doors when leaving the building.

Vandalism protection is provided by exterior lighting and local police patrolling during night hours. Unusual conditions detected inside school buildings or on school grounds should be reported to the principal and/or the administrator.
