

Policy of the Lancaster Board of Education  
Students

**NURSING SERVICES ILLNESS**

If a child arrives at school ill, or becomes ill during the school day, the following steps should be taken:

1. Evaluate temperature.
2. Check for other symptoms (i.e. vomiting, skin color, malaise, cough, irritability, rash, runny nose, watery eyes, diarrhea, red ears, etc.)
3. Review student complaints (i.e. sore throat, nausea, earache, headache, stomachache, etc.)
4. If the temperature is elevated, and/or if the signs and symptoms of 1-3 warrant it, the child should be isolated and excluded from school.
5. Contact parent or other persons listed on emergency form to come to get the child.
