

## **INSPECTION TRAINING**

Principals or those individuals assigned to carry out the implementation of the safety system at each school location must be trained in the recognition of the general hazard categories found in and about the school facilities. Therefore, each principal shall attend a workshop sponsored by the vocational school, CESA agency, or other governmental agency, which will instruct these people in the recognition of the following hazard categories:

1. Walking and Working Surfaces
2. Means of Egress
3. Flammable and Combustible Liquid Storage
4. Fire Protection
5. Electrical Hazards
6. Machine Guarding
7. Personal Protective Equipment
8. Environmental Hazards (Ventilation, noise, toxic substances)
9. Housekeeping
10. Specialized Hazards to Include -
  - a. building modifications
  - b. material handling
  - c. emergency lighting
  - d. special codes
