

Winskill 2018 Summer School

July 30th-August 2nd
August 6th-9th
August 13th-16th

7:45 am-12:15 pm

Grades 1, 2, 3:

Makerspaces: Come build and create with lots of different materials. We can't wait to see what you put together. We will have Legos, building blocks, stacking cups, and much more!

Rainy Day Games: Join us to learn and play all kinds of board games and card games. We will learn the rules and different strategies to play each of the games. We will also learn and work on displaying good sportsmanship!

Outdoor Games: Enjoy the summer weather while playing games with your friends! We will venture outside to play games like kickball, soccer, jump ropes, tag, and so much more!

Let's go to the Beach!: Just keep swimming, just keep swimming...let's learn about the deep blue together! Have you ever wondered about what's down under? Have you ever felt like dipping your toes in the sand? Let's explore the beaches, oceans and animals of our watery world together! We will make our own sand, explore like a shark would, write our very own beach stories and so much more!

STEM Madness!: Do you like Science? What about Technology? Do you know what Engineering means? How about Math? Use all of your creative problem solving skills to complete a STEM challenge each day! Each day you will be given a challenge to solve and actively work together in a group to plan, design and test your solution! Get those thinking caps on!

Kid Ninja Warrior: Are you up for a challenge? Do you aspire to be the next American Ninja Warrior? Training starts now! We will run, jump, climb, crawl, swing, hang and play our way through a variety of mini challenges and obstacle courses to get you ninja ready.

Make and Take: Have fun making your own slime, play-doh and more. Could get messy!!

Read and Learn to Draw: We will read a variety of stories and draw/create an animal, activity or item that goes along with the story.

Dinosaurs During the Day: Dinosaurs ruled our planet for 180 million years! There were many different kinds of dinosaurs though. Some were as large as a bus, and others smaller than a squirrel. In this class, we'll learn about a different dinosaur every day and talk about why some dinosaurs had spikes while others had feathers.

Camping: Camping is a great summer pastime in Wisconsin! Learn how to set up a tent, make camping snacks, and other essential camping needs. This class will help prepare for your family's summer and fall camping trips!

Grades 4, 5, 6:

Makerspaces: Come build and create with lots of different materials. We can't wait to see what you put together. We will have Legos, building blocks, stacking cups, and much more!

Rainy Day Games: Join us to learn and play all kinds of board games and card games. We will learn the rules and different strategies to play each of the games. We will also learn and work on displaying good sportsmanship!

Outdoor Games: Enjoy the summer weather while playing games with your friends! We will venture outside to play games like kickball, soccer, jump ropes, tag, and so much more!

Magic: Abracadabra, Hocus pocus! Everyone loves to be amazed. At this class students will learn to be AMAZING. We will learn magic tricks that can be performed with everyday objects like coins, ropes, and cards. No prior magic experience is needed. By the end of the sessions, students will be able to delight their friends and family with their magic ability.

STEM Madness!: Do you like Science? What about Technology? Do you know what Engineering means? How about Math? Use all of your creative problem solving skills to complete a STEM challenge each day! Each day you will be given a challenge to solve and actively work together in a group to plan, design and test your solution! Get those thinking caps on!

Kid Ninja Warrior: Are you up for a challenge? Do you aspire to be the next American Ninja Warrior? Training starts now! We will run, jump, climb, crawl, swing, hang and play our way through a variety of mini challenges and obstacle courses to get you ninja ready.

Gamification: Do you love to play games? Are you familiar with games like Linkee, Kahoot Jumble, Codenames, or Reverse Charades? Each day we will be working with others to play games. We will play board games, dice games, and some online games. This will be a fun way to learn new games that you can play any time! The final project will be your own unique board game that you create!

Rocket Mania!: Ever want to build and launch a **REAL** working rocket? Join Mr. Addison in learning the behind the science and forces that will act on your rocket. Spend the remainder of the week designing and crafting your rocket and prepare to **LAUNCH** them by the end of the class! Rocketeers, let's get to work!

Discover the Dinosaurs: Think you know everything about dinosaurs? Yeah, I'm talking to you. You're the kid who's read every informational book on dinosaurs known to kids. The one who orders a new non-fiction dinosaur book equipped with 3-D glasses every Scholastic book fair. Or maybe you think dinosaurs aren't that interesting. I mean if they're so great, why aren't they still around? In this class, we will explore the deep questions! Why were dinosaurs so different? What made a dinosaur, a dinosaur? And where did they all go?

Camping: Camping is a great summer pastime in Wisconsin! Learn how to set up a tent, make camping snacks, and other essential camping needs. This class will help prepare for your family's summer and fall camping trips!

Inspired by Nature: In Wisconsin, we are blessed with some beautiful days. Unfortunately, our winters are long! That's why we'll be spending every day we can outside. Prepare to sit back, relax, and enjoy summer. In this class, you'll learn how to use the outdoors and your five senses to inspire your reading and writing skills.

Summer School Sign Up Sheet

Student Name (First & Last): _____

Circle Student's Grade for the 2018-2019 School Year: K 1 2 3 4 5

You must have completed 4K to attend summer school.

*****5K Students:** If your child will be in 5K for the 2018-2019 school year, they will stay with the 5K summer school teachers for the whole morning and enjoy the enrichment classes planned by those teachers. **Students entering 5K will not pick from the list on the back.**

*****1st-5th Grade Students:** Mark your enrichment course choices in order of preference. (with #1 being your First Choice) on the back. We will do our best to match your child's choices.

*****6th Grade Students:** Students going into 6th grade will have two options. You may sign up for classes listed on the back or you may volunteer as a student helper. If you would like to be a student helper do not mark choices on the back. You will be assigned to groups in grades K-3 to assist the teachers.

_____ I would like to be a student helper.

Your child's final summer school schedule will be e-mailed to you.

Summer email address

___ I do not have access to email. Please mail my child's summer school schedule to me.
