

Dear Parent/Guardian:

Your child is enrolled in Health II Education and will soon be participating in the Human Growth and Development portion of the class. There are several components to this unit including: Anatomy or reproductive organs, conception, pregnancy, birth, abstinence and other contraceptive options, and STD's. We will also be talking about healthy relationships and making good decisions related to their sexuality. We will be learning through reading, journaling, discussions, videos, and other teaching methods.

Abstinence will be stressed throughout the entire unit and will be my main focus the entire time; however I feel that it is important to educate the students on other contraceptive methods in order for them to become responsible and knowledgeable adults. If you wish to have your student removed from part or this entire unit they will need to complete an alternate assignment. This will not affect their grade provided they complete the alternate assignment to my standards.

If you have any questions or concerns please call or e-mail me at school.
